

## Perform Manager Tasks (Android™) Learner Guide

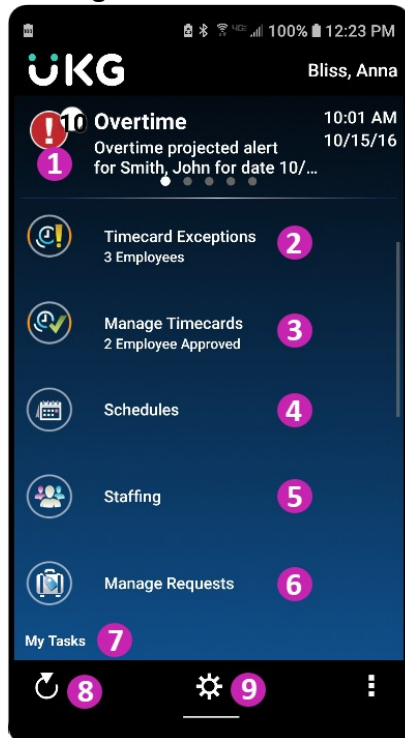

### Get the app

Anyone can download and try out the UKG Mobile app—check your device’s app store to get it. To log into your organization’s server, however, you must be granted access.

### Home Screen Overview

#### Logging On

When you start the UKG Workforce Mobile app, your device connects to your organization’s UKG Workforce Central server, using an IP address you supply. You can then log in using your existing UKG Workforce Central credentials.

1. **Alerts** - If there are matters requiring your attention, they will appear as alerts. Tap the Alerts icon to view all your alerts.
2. **Timecard Exceptions** – Tap to address timecard issues that require your attention.
3. **Manage Timecards** – Tap to access your employees’ timecards.
4. **Schedules** – Tap to manage your employees’ schedules.
5. **Staffing** – Tap to manage staffing.

6. **Manage Requests** – Tap to view and manage requests from your employees, including requests for time off or to swap shifts.
7. **My Tasks** – The manager’s personal tasks. Simply tap a task to drill down and view its details. Scroll down to access more tasks. Depending on your role, some tasks may not be accessible.
8. **Refresh** - Tap to update the screen with the latest data from the server. It’s a good idea to refresh after making edits.
9. **Context** - Tap to change the Time Period you are viewing. All information you view will be in this context until you change it.

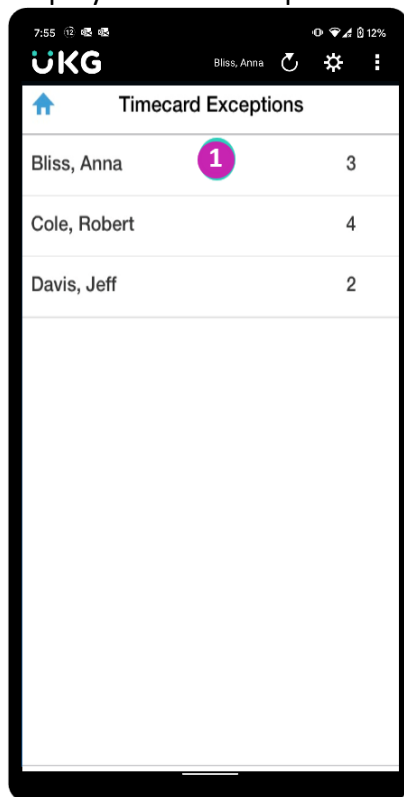

## Managing Timecard Exceptions

### Marking Exceptions as Reviewed:

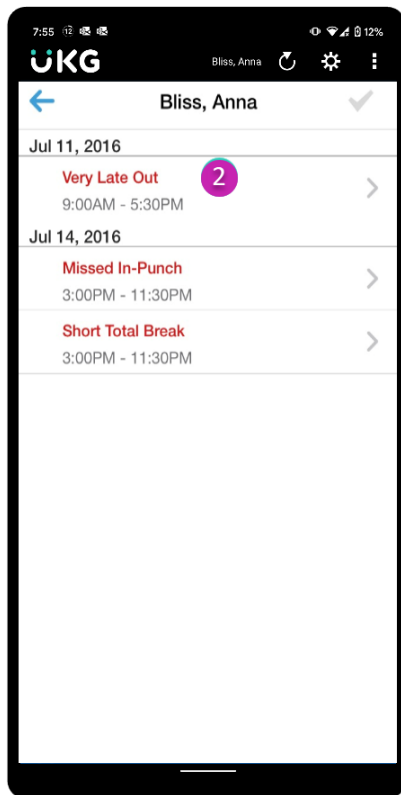

Some exception types cannot be resolved in UKG Workforce Mobile but must instead be resolved from your computer. In this case, you may have the option to tap Reviewed to mark the exception as reviewed. Exceptions are removed from the list when they are either resolved or marked reviewed.

On the home screen, tap **Timecard Exceptions**. (Labeled as #2 on the Home Screen Overview.)

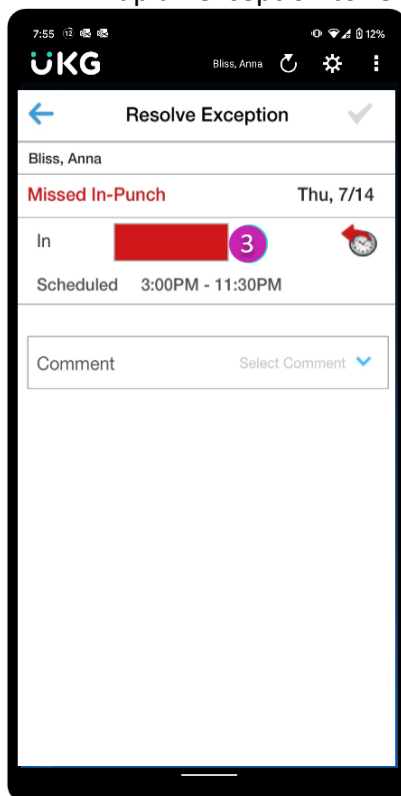

**Timecard Exceptions Count** – The count under the Timecard Exceptions tells you how many employees have exceptions that need your review.

1. Tap a name to view that employee's exceptions. **Exception Count** - The number next to each employee's name tells you how many unresolved exceptions that employee has.

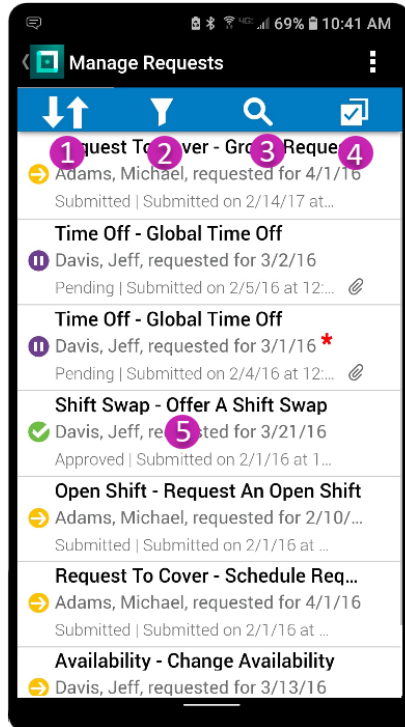

2. Tap an exception to review its details.

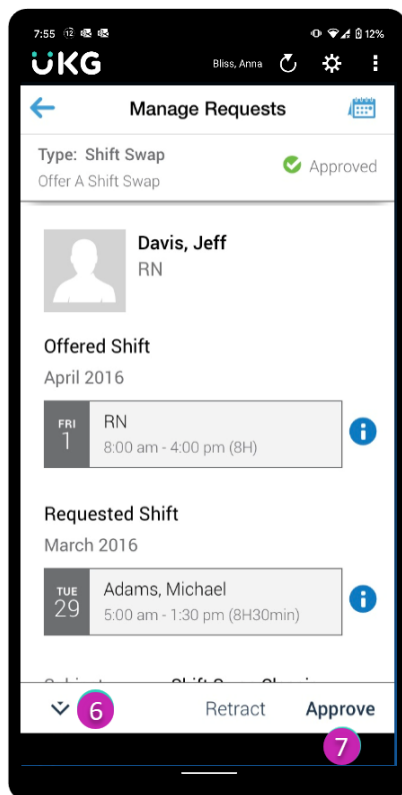

3. Your options for correcting the punch depend on the type of exception. In this example, you can manually enter a time, or tap the icon to enter the scheduled punch time.

## Manage Requests

On the home screen, tap **Manage Requests**. (Labeled as #6 on the Home Screen Overview.)

1. **Sort Requests** - Tap to alternate between sorting request by most recent or least recent submission date.
2. **Filter Requests** - Tap to enter a set of criteria, then tap **Apply**. Only requests meeting your criteria will appear in the list. Sort on a specific range of Request or Submit dates, on a specific type of request (Time Off, Request to Cover, etc.) and/or a specific Status (Pending, Submitted, etc.).
3. **Search** - If the list of requests is overly long, you can tap here and start entering text to search on. The list of requests will narrow as you type.
4. **Selective Approval/Rejection** - As an alternative to approving or rejecting one request at a time, tap here to enter a mode in which you can select multiple requests of the same type for action. Then tap an action to apply that action to all selected requests.
5. Select a request from the list to view its details.

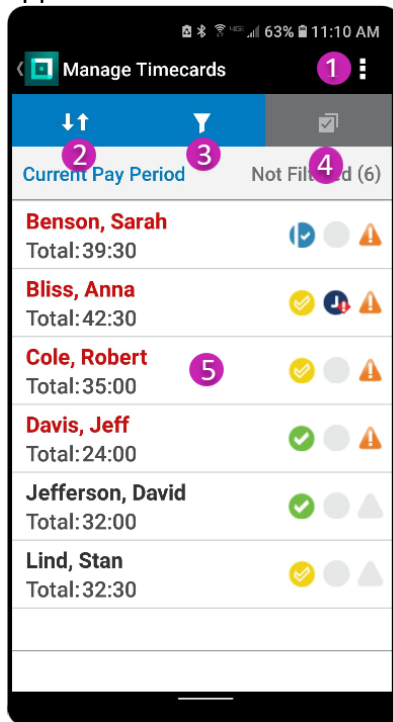

6. **Additional options** - Tap to see additional actions you can take, such as adding comments to the request.
7. Review the details of the request. Your available actions will appear at the bottom of the request. The actions you can take depend on the type of request being reviewed.
